

LET EAVS™ MAKE A DIFFERENCE  
AT YOUR FACILITY TODAY

- ✓ Track location and activity of all guests
- ✓ Shorten recognition & response time
- ✓ Monitor activities away from normal lifeguard zones
- ✓ Remotely audit performance of staff
- ✓ Automatically alerts staff
- ✓ Cost effective preventative measure

# ELLIS AQUATIC VIGILANCE SYSTEM (EAVS)™

The Ellis Aquatic Vigilance System™, known as EAVS™, is an advanced technology drowning prevention system unmatched in the aquatic industry. Available through, Ellis Aquatic Innovations, EAVS™ provides “supplemental eyes” via high definition cameras above and below water integrated with a smart video monitoring system providing thorough coverage of any facility. With its artificial intelligence software EAVS™ aids control room operators to identify possible guests in distress. Welcome to the future of aquatic safety.
